

FIRST-OF-ITS-KIND EV BATTERY SERVICE CENTRE IS HERE

Ipower is committed to helping India make pollution-free roads by powering electric vehicles with safe, efficient, and reliable batteries. Being in the market for 3 decades, while delivering exceptional Lithium-ion batteries, we understood that only delivering excellent batteries was not enough, their regular servicing is important too.

NEED FOR BATTERY SERVICE CENTRE

Lithium battery is a totally different market, and that's why its servicing needs a different approach, such as:

- Different skill set is required.
- Different technology is required.
- Different safety protocols are required.

Answering the rising demand, ipower introduced the first-of-its-kind advanced service centre for EV batteries all over India.
